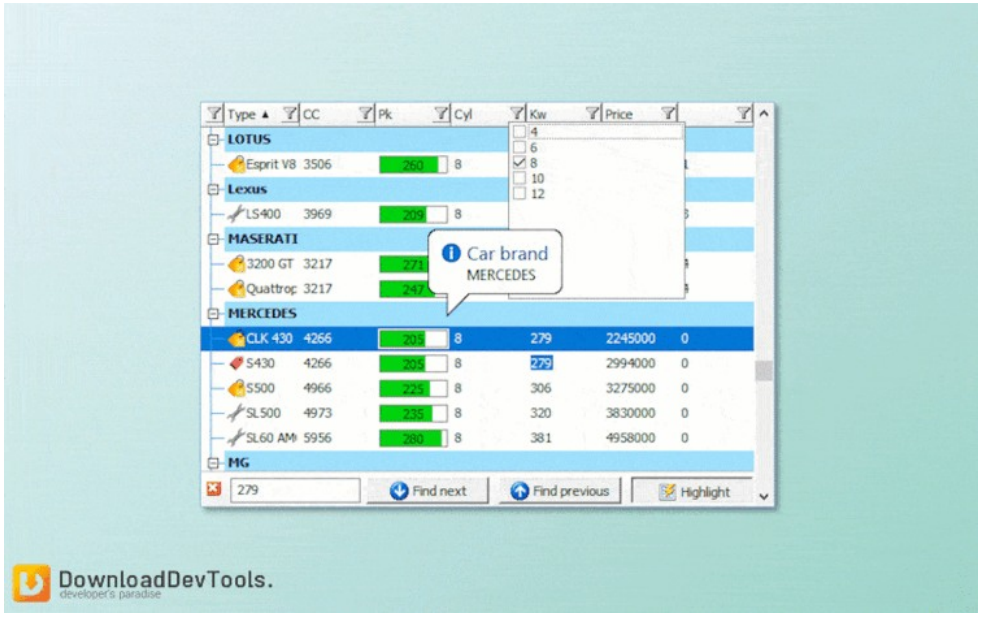
TMS VCL UI Pack v13.6.4.1 for Delphi & CB 7-12 Athens Full Source

2026-06-16 08:09:09



The **TMS VCL UI PACK** is a comprehensive toolkit for developers using Delphi and C++ Builder to create advanced Windows applications. It offers over 600 UI controls, such as grids, planners, rich editors, ribbons, charts, treeviews, and more. With TMS VCL UI PACK, developers can build visually appealing and user-friendly applications that meet modern standards.

TMS VCL UI PACK is easy to use, even for developers without experience with VCL development. The controls are highly configurable so that you can tailor them to your needs. With its built-in support for data and localization, TMS VCL UI PACK can help you build applications that are truly global in reach.

If you're looking for a way to create modern, feature-rich Windows applications, look no further than . It's the perfect solution for developers who need a powerful and easy-to-use set of UI controls.

Key Features of **TMS VCL UI PACK**:

1. **Wide Range of Components**: The pack includes various components such as grids, planners, tree views, ribbon controls, and much more, offering a rich toolkit for building versatile user interfaces.
2. **Rich Data Handling**: Advanced grid components allow for complex data representation and manipulation, with features like sorting, filtering, and in-place editing.
3. **Modern User Interface Elements**: The pack includes modern UI elements such as ribbons, toolbars, menus, and other controls that follow the latest UI trends and standards.
4. **Office-style Ribbon Controls**: The pack includes ribbon controls, making creating applications with a familiar, modern interface similar to Microsoft Office products easy.
5. **Advanced Charting and Graphs**: Comprehensive charting components are available, enabling complex data visualization applications to be developed.
6. **Customization and Skinning**: Many components in the pack support extensive customization and skinning, allowing developers to tailor the look and feel of their applications to match specific requirements.
