Appsforlife Barcode Generator v2.5.6 for Win & macOS

2025-07-07 17:35:08

Appsforlife Barcode Generator is a comprehensive software solution designed to create visually perfect barcodes with meticulous attention to detail. With a focus on graphics appearance, users can configure every aspect of their barcode labels, including colors, fonts, sizes, margins, and more. The user interface is simple and intuitive, facilitating fast barcode creation and minimizing the risk of errors. Integration with Adobe Illustrator allows for seamless incorporation of barcodes into design projects without depending on third-party software.

Supporting a wide range of barcode types, including UPC A, EAN 13, CODE 128, QR codes, and more, this software ensures compatibility with diverse industry standards. Users have full control over customization options, from fonts and bar widths to colors and margins, guaranteeing the creation of precisely tailored barcodes with assured printability. Spot colors are supported for vector output, ensuring optimal quality for various applications.

offers bulk processing capabilities, allowing users to configure a single barcode design and generate multiple barcodes by providing a list of codes. The software supports vector and raster output, enabling export to EPS, PDF, SVG, TIFF, PNG, and other common formats. With support for CMYK and spot colors, transparent backgrounds, custom texts, drag-and-drop export functionality, barcode import, and printing support, this software provides a comprehensive barcode creation and customization solution.

Key Features of **Appsforlife Barcode Generator** :

1. Create visually perfect barcodes with meticulous attention to detail
2. Configure every aspect of barcode labels, including colors, fonts, sizes, and margins
3. Simple and intuitive user interface for fast barcode creation and minimal errors
4. Integration with Adobe Illustrator for seamless incorporation into design projects
5. Supports a wide range of barcode types, including UPC A, EAN 13, CODE 128, QR codes, and more
6. Full control over customization options, such as fonts, bar widths, colors, and margins
7. Spot colors supported for vector output, ensuring optimal quality for various applications
8. Bulk processing capabilities for generating multiple barcodes by providing a list of codes
9. Supports vector output formats like EPS, PDF, and SVG, as well as raster formats like TIFF and PNG
10. CMYK and spot colors support, enabling precise color specification

所有软件资源 100%安全 已检测 无病毒 无篡改
