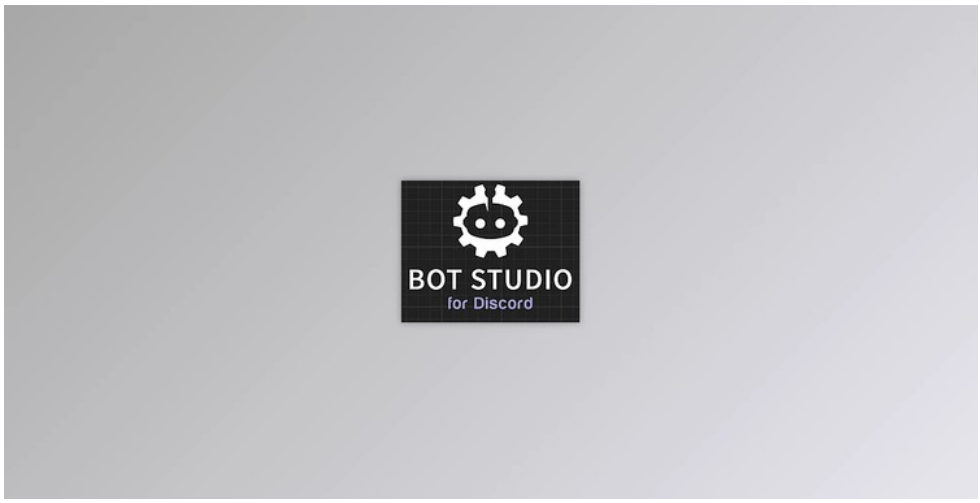
Discord Bot Studio v2.3.0

2025-07-17 22:03:55



The easiest way to make Discord bots. The drag-and-drop editor makes it simple to create the perfect bot for your servers; no coding is required!

Discord Bot StudioGreat Features:

- Build your bots effortlessly using a flowchart-style editor; no coding is required!
- Custom responses can be connected to command and event nodes.
- Create actions that will run when various server events occur, such as a new user joining the server.
- Pre-built elements get your bot up and running quickly.
- Third-party mods can be added to enhance your bot's functionality.
- Configure rules to prevent spam.
- Download your bot's code. You can host it on your computer, a VPS, or a hosting site like Heroku.
- Invite your bot(s) to your servers, or share them with the world.
