2026-08-31 13:51:22

Multi-Language for Visual Studio provides extended support for producing localized software using Microsoft Visual Studio. Multi-Language for Visual Studio provides extended support for the localization of Visual Studio projects.

The supported application types are

- Windows Forms
- Windows Store Apps
- WPF
- Silverlight
- ASP.NET 2.0
- Compact Framework
- MFC (unmanaged C++)

The product is used as a Visual Studio Package, meaning it is closely integrated into the development environment. The localization service relies on the built-in localization service in Visual Studio and at the .NET environment.
