Coolorus v2.5.16 for Adobe Photoshop: Coolorus is a color wheel plug for Adobe® Photoshop®, motivated by Corel® Painter® color picker.

Coolorus is the perfect option for creative individuals prepared to enhance their painting workflow. It saves time and makes it possible to select much better colors thanks to Color Schemes, Gamut Lock along with also the energy of triangle HSV representation.

- **Affects Shapes & Text Layers:** Coolorus is currently able to alter text and strong shapes fill color. As straightforward as that.
- **Shade Sliders:** 6 color spaces (RGB, HSV, LAB, and much more), it is possible to arrange them precisely as you'd like.
- **Gamut Lock:** Sometimes less is more. Restrict your gamut to acquire more consistency on your own color palettes.
- **Color Splash:** Wish to maintain picked colors? Or discuss them with other people? Or simply mix them? It is all possible today with a fresh Mixers panel.
- **Simple Mode:** virtually every Coolorus component can be simplified. Simply hover on press and element +/on your computer keyboard (CS5&CS6) or utilize Configuration mode (CC).
