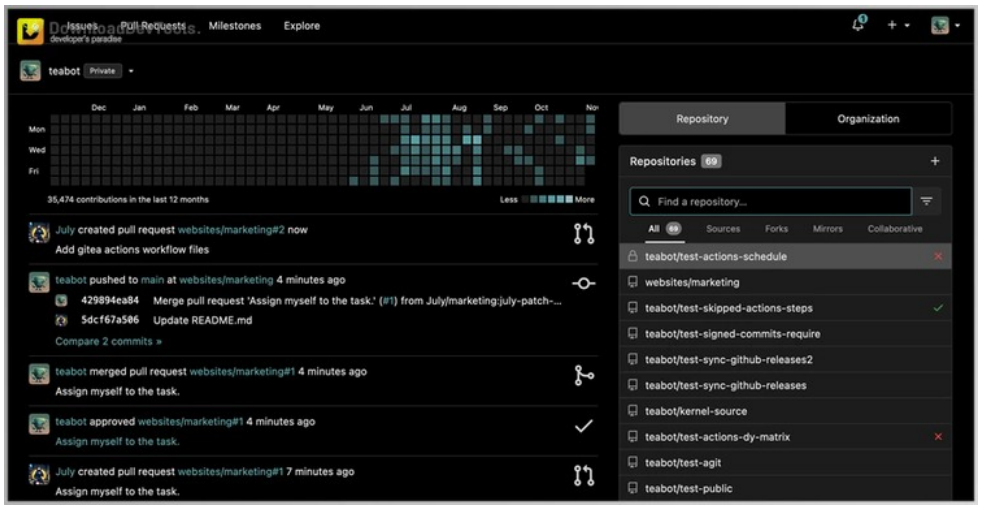
Gitea Enterprise v25.4.2 for Win x64 & macOS & Linux

2026-03-13 14:50:28



Welcome to , the premier solution for self-hosted Git service tailored for enterprise-level users. This robust and feature-rich platform elevates your Git repository management experience with exclusive themes, enhanced security features, and seamless scalability for growing teams. **Gitea Enterprise** is designed to be lightweight, user-friendly, and highly customizable, making it an ideal choice for small and large teams.

Gitea Enterprise builds on the core functionality of the open-source Gitea project, adding advanced features to meet enterprises' complex needs. It offers enhanced branch protection with inheritance rules, automated dependency scanning for vulnerabilities, and advanced security measures, including IP Allowlist and mandatory two-factor authentication. Additionally, **Gitea Enterprise** supports SAML 2.0 for seamless integration with your enterprise identity provider, providing a secure and efficient authentication process.

Key Features of **Gitea Enterprise**:

1. **Branch Protection Inheritance:** Create branch protection rules for an organization and apply them across all repositories.
2. **Dependency Scanning:** Automatically identify and address vulnerabilities in open-source dependencies.
3. **Advanced Security Features:** Enhance security with IP Allowlist and mandatory two-factor authentication.
4. **Enterprise Themes:** Personalize your user interface with exclusive, carefully designed themes.
5. **SAML Authentication**: Configure Gitea as a SAML 2.0 Service Provider for seamless integration with enterprise identity providers.
6. **Audit Log:** Access a comprehensive history of activities within your Gitea instances for thorough auditing.
