Tutorial   平面设计

Have you ever thought of making those amazing quote art pieces but aren't sure about the art of lettering?

I've got your back! In this class, you'll learn how to design and illustrate your lettering art with your handwriting, as well as some drawing basics!

What is the reason to take this Class?

Hand lettering can be a great option to enhance any artwork or even as an independent artwork. It can be difficult to sort through the various fonts, typefaces, and rules. I wanted to make it easier because I had a hard time putting off a decision when it came to illustrating my favorite quotes.

If you're here, you already have two things to say that you are able to write and draw simple things such as forms and lines, don't you think? This class is for you! We will utilize these two techniques to create an impressive illustration of your favorite quote.

Furthermore, I will show you how to make your words appear in 3D and shine. With Procreate's simple tools allow you to easily create effects that create a pop in your letters and create an entertaining piece of artwork!

Who is this class for?

Whatever your background or personal experience, if you have an idea in your head you'd like to put into words this class is for you!

The best choice is for beginners since the course is designed to teach students who do not have any prior knowledge or experience in the art of lettering.

If you're a pro and would like to unwind and loosen up, then you're welcome to join us. However, If you are a professional, adhering to a strict set of rules, this class is not for you.

What will you require?

You'll need

- A short, simple quote that you would like to illustrate,
- An iPad with Procreate and an iPad on it,
- If you want, you can also use a pencil or paper,
- the resources are downloaded through the "Projects and Resources" tab.

What will you learn?

There are a lot of things you'll be taught from this program! Let's list the most important ones:

You will learn how to:

- Make use of your handwriting as a starting point to create your own lettering pieces
- Create an artistic composition using words as well as other elements
- Create 3D letters
- Create a shimmering effect with paint
