ModeAudio Moon Dance Serum Ambient Presets: Immerse your music in the cosmic dust that traverses space and time, creating ethereal connections between gods and galaxies. Introducing Moon Dance - Serum Ambient Presets, a mesmerizing collection of 50 royalty-free patches meticulously crafted for Xfer Records' Serum soft synth. Each preset takes you on a journey into the heart of the interplanetary drama, transforming your VST into a portal to infinite worlds of meditative sonic space and texture.

From enveloping bass layers and sweeping pads to meteor shower-like SFX and constellation-inspired leads, this set captures the essence of Ambient music while venturing into the spellbinding and spine-tingling compositional realms of modern film and TV soundtracking.

The collection includes undulating, uplifting arps in major and minor moods, as well as propulsive sequence presets, adding a rhythmic dimension of galactic proportion. Built from custom wavetables and noise samples, these presets offer a unique sonic palette. The core .fxp presets are complemented by 4 assigned macros for quick sound sculpting options.
