

dlSoft Barcode Components for .NET Dual Universal v6.3

2025-01-07 11:34:24

DBarcode .NET products comprised managed code WinForms Controls and Components that allow barcode images to be created within the developer's own .NET Windows Form or ASP.NET program. A barcode image could be displayed on-screen or printed onto a printer, and also You could pass the picture to some other image-handling component.

DBarcode .NET goods are made to operate with Visual Studio 2005-2017 and need the .NET Framework 2.0 (or later) installed on almost any computer using the components. Example code for Windows Forms is supplied with every controller and component for users of Visual Basic .NET and C#

There are many elements in the *dBarcode .NET* Components household, one for all the popular 2D barcode types and a few that manage a vast selection of different barcode types. The elements are:

All downloads include controls and components for both .NET Length and 2.0 and later.

- *DBarcode.NET Double Universal* - supports All the 1D, 2D, and GS1-Composite barcode Kinds of the elements below in one part (excluding DMRE)
- *DBarcode.NET* 1D Universal -- for many common barcode types (over 50 types supported, including Codabar, Code 128, Code 39, DeutschenPost, EAN/UCC-13, EAN/UCC-14, EAN/UCC-128, HIBC, IATA 2 of 5, InfoMail, Intelligent Mail, Interleaved 2 of 5, ISBN, ISSN, ISMN, Japan Post, MSI, Plessey, Postnet, Planet, and RM4SCC).
- *DBarcode.NET* 2D Universal - for many common 2D barcode types - Aztec, DataMatrix (such as DMRE), Maxicode, PDF417, Truncated PDF417, Micro PDF, *QR-Code, *Micro QR, and GS1-DataBar (previously RSS).
- *DBarcode.NET*_Composite - to get GS1 Composite barcodes.
- *DBarcode.NET Conventional* -- for Code 39, Extended Code 39, Code 93, Extended 93, Code 128, Interleaved 2 of 5, and Matrix 2 of 5 barcodes
- *dBarcode.NET* GS1 -- for EAN-13, EAN-14/UCC-14, EAN-8, GS1/EAN 128/UCC-128, UPC-A/UCC-12, ITF, SSCC, UPC-E barcodes
- *dBarcode.NET* Aztec -- for Aztec barcodes*
- *DBarcode.NET* Datamatrix -- for both rectangular and square DataMatrix barcodes* (such as DMRE)
- *dBarcode.NET* PDF417 -- for PDF417, Truncated PDF417 and Micro PDF barcodes*
- *dBarcode.NET* QR Code -- for QR Code and Micro QR Code symbols *
- *DBarcode.NET* Databar -- for Databar (previously RSS) barcodes

dlSoft Barcode Components for .NET Double Universal Great Features:

- Produce high-resolution metafile or EPS pictures.
- Save graphics files or memory flows in Many Different formats (BMP, EPS, GIF, JPG, PNG, TIF, WMF).
- Barcodes can be rotated through any angle or made as a mirror image.
- You may turn off margin indicators and bearer bars for codes that support these features.
- Font attributes, text justification, bar color, and background color may be user chosen.
- You could correct wide/Narrow ratios to get a barcode type that encourages this.
- Bar width control for wet-ink printing allows 0 - 50% width reduction.
- Design-time conversation for simple WinForms installation
- Totally serializable
