Applications Tools

is a powerful yet simple screen recording and video editing software. It allows users to easily capture their screen activities, making it ideal for creating tutorials, presentations, and demonstrations without needing technical skills. It can record anything on your screen, whether it's your entire display, a specific window, or a custom portion. You can even record from your webcam and simultaneously capture audio from your computer and microphone, making it a versatile tool for various recording needs.

In addition to screen recording, this software offers impressive video editing features. You can easily trim, merge, and customize your recordings, apply filters, add watermarks, or incorporate music and subtitles. Its built-in video editor makes it simple to personalize your videos by adjusting brightness, contrast, and other settings or by using features like picture-in-picture. It also supports hardware acceleration for smooth video processing and offers multiple output formats, ensuring compatibility with different platforms.

What makes **GiliSoft Screen Recorder Pro** stand out are its convenient features, such as scheduled recording, zooming in during the recording, and adding mouse click effects. It even allows you to take snapshots during the recording and schedule tasks to start and stop automatically at specific times. With its intuitive interface and wide range of functions, it caters to both beginners and advanced users, offering a complete screen recording and video editing solution.

Key Features of **GiliSoft Screen Recorder Pro** :
