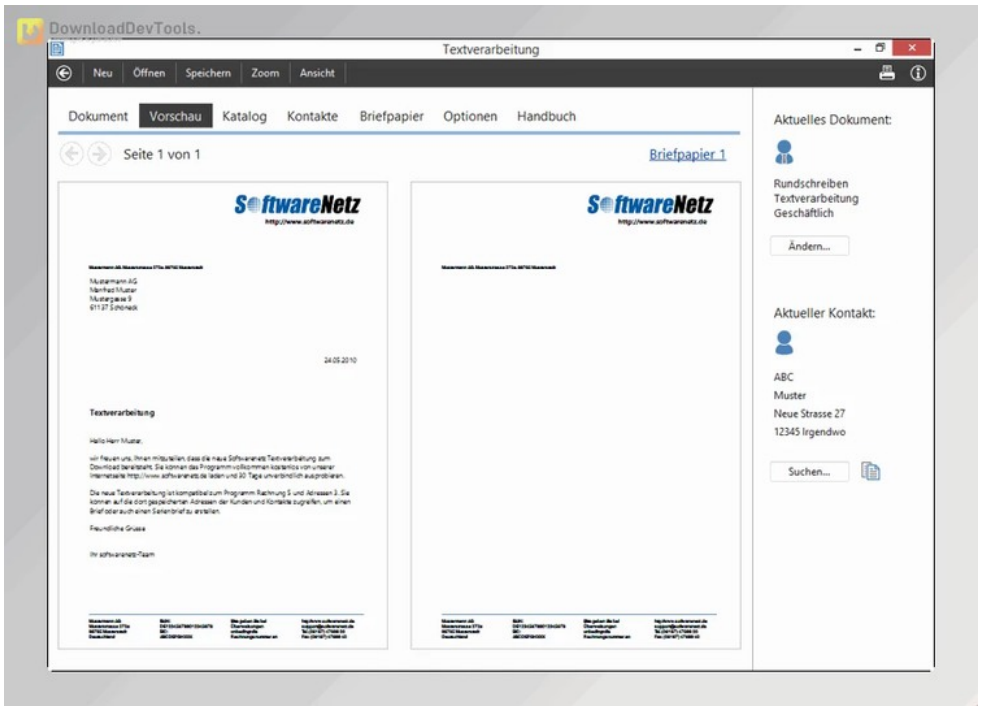
Softwarenetz Text editor v1.34 Multilingual

2025-01-06 23:05:55



is a simple and intuitive tool designed for creating both personal and business letters. It offers all the standard text editing features you need, such as searching and replacing text, adjusting font sizes, and applying bold or underline styles. This makes it easy for anyone to format their documents professionally.

One of the standout features is the ability to create custom writing paper directly within the program, perfect for personal or business use. You can save or email your documents as PDF files, ensuring they look great and are easy to share. The editor is also compatible with other Softwarenetz programs like Invoice and Addresses, making it a versatile addition to your software toolkit.

In addition, **Softwarenetz Text editor** supports up to eight different writing papers and simplifies the process of creating and printing mailings. Integrating with the Addresses or Invoice programs allows you to insert contact addresses with a single click and print your letters efficiently. This makes managing and sending mailings to your contacts or customers a breeze.

Key Features of **Softwarenetz Text editor**:

1. Text search and replace
2. Font size adjustments
3. Bold and underline options
4. Customized writing paper creation
5. Save or email as a PDF
6. Compatibility with Invoice and Addresses
7. Supports up to 8 different writing papers
8. Easy mailing creation with variable support

所有软件资源 100%安全 已检测 无病毒 无篡改
