Fine Art Weddings is a collection of 120 films presets that have been carefully selected to create a wedding with a fine art style. The pack includes 8 film presets as well as more than 20 presets of tools for creating. To get close-ups of more than 120 movies, Filmlooks has created camera profiles for every digital camera made by Canon, Nikon, Sony, Fuji, and Leica matching with curve profiles for every film look.

In comparison to Filmslooks 645, this collection is cleaner and brighter, with natural and creamy tones, which are perfect for weddings and fashion, as well as food, and editorial photography.

- Compatible software: Adobe Lightroom
- The project includes: 120 film presets
