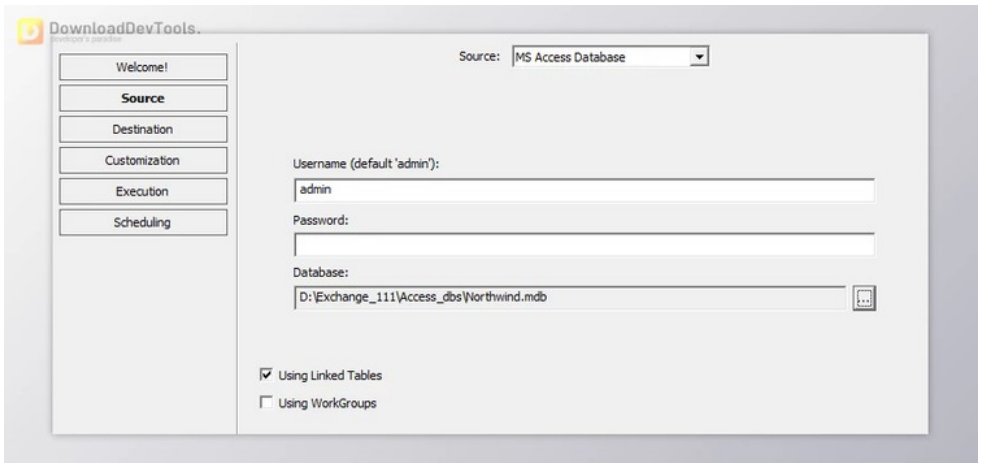
DMSoft DBConvert for Access and FoxPro v3.4.9

2025-01-06 23:23:03



DMSoft DBConvert for Access and FoxPro facilitates the seamless conversion and synchronization between Microsoft Access (.mdb or .accdb) and FoxPro formats, including MS FoxPro (.DBC) and FoxPro free tables (.DBF). It also supports data storage in an MS Visual FoxPro Program (*.prg) for added flexibility. The tool simplifies migration from Access to DBF, ensuring precise transfer of tables, records, and data objects while preserving integrity and accuracy through intuitive interfaces and customizable mapping options.

offer automated bidirectional synchronization for data synchronization between Access and DBF databases, ensuring consistency across platforms. Scheduled tasks reduce manual intervention, while intelligent conflict resolution mechanisms maintain data integrity. Detailed logs and reports provide insights into the synchronization process, facilitating tracking of changes and troubleshooting. Whether migrating data or synchronizing databases, **DMSoft DBConvert for Access and FoxPro** provide a user-friendly solution with comprehensive features accessible to users of all levels.

Key Features of **DMSoft DBConvert for Access and FoxPro**:

1. Seamless conversion and synchronization between Microsoft Access (.mdb or .accdb) and FoxPro formats, including MS FoxPro (.DBC) and FoxPro free tables (.DBF)
2. Support for data storage into an MS Visual FoxPro Program (*.prg)
3. Simplified migration from Access to DBF with precise transfer of tables, records, and data objects
4. Preservation of integrity and accuracy through intuitive interfaces and customizable mapping options
5. Automated bidirectional synchronization for maintaining consistency across Access and DBF databases
6. Scheduled tasks to reduce manual intervention
7. Intelligent conflict resolution mechanisms to maintain data integrity
8. Detailed logs and reports for insights into the synchronization process
9. User-friendly solution with comprehensive features, accessible to users of all levels
