Apowersoft Screen Capture Pro v1.5.5 Multilingual

2026-05-20 13:58:13

makes capturing anything on your screen easy, from quick snapshots to smooth video recordings. A simple and intuitive interface allows you to instantly capture your screen in different modes like full-screen, window, or a custom region. You can save images in popular formats like PNG, JPG, and PDF, while videos can be saved in formats like MP4 and AVI, giving you flexible options for any project.

The built-in editing tools let you add finishing touches to your captures, whether annotating with text and arrows, adding highlights, or applying effects like shadows. For those needing advanced edits, you can easily crop, resize, rotate, or add effects to make your images stand out. Additionally, **Apowersoft Screen Capture Pro** has a screenshot scheduler, which lets you set up automatic captures at daily or weekly intervals, perfect for monitoring tasks or other recurring needs.

Sharing your captures is simple, with integrated options to upload images to secure cloud storage or share them directly on social media. **Apowersoft Screen Capture Pro**'s comprehensive features make it a reliable and versatile tool for all screen capture and editing tasks.

Key Features of **Apowersoft Screen Capture Pro** :

1. Versatile Capture Modes: Choose from full-screen, window, custom region, and other modes to capture precisely what you need.
2. Flexible Saving Options: You can save images in PNG, JPG, BMP, PDF, and videos in MP4, AVI, WMV, and more.
3. Easy Editing Tools: Quickly annotate with text, lines, arrows, blur, and highlight; advanced options include resizing, rotating, and adding effects like shadow.
4. Scheduled Captures: Set automatic screenshot schedules with customizable time intervals and save locations.
5. Seamless Sharing: Upload to secure cloud storage or share directly on social media, making it easy to collaborate or archive your captures.
