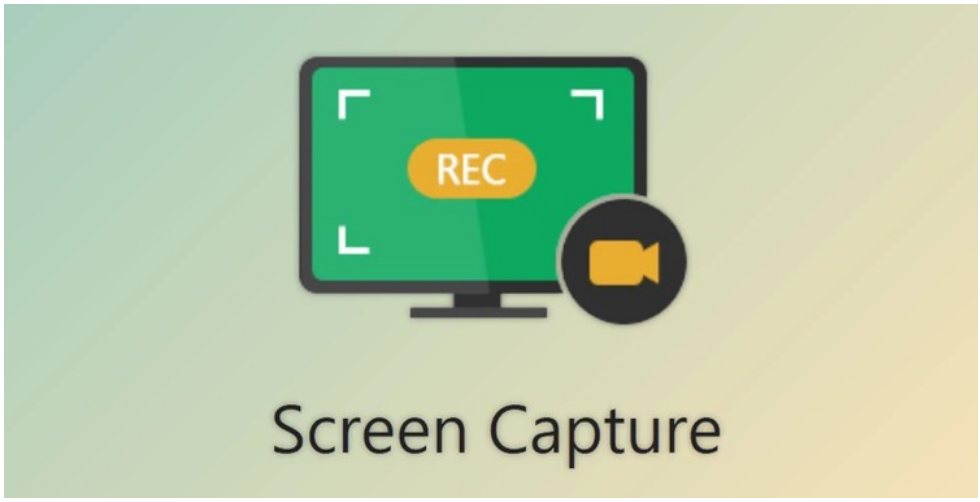
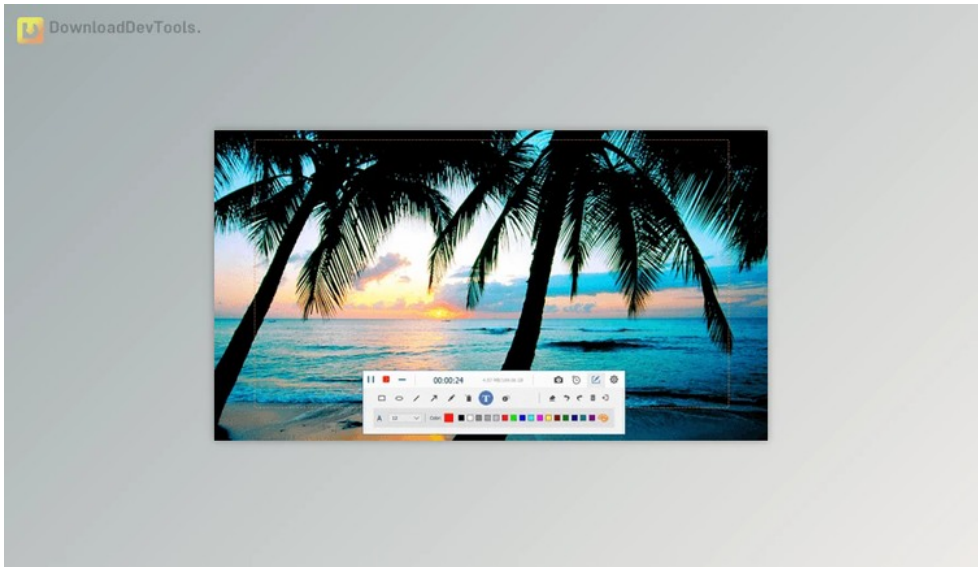
4Videosoft Screen Capture v1.5.26 Multilingual for win x64

2025-04-09 21:06:38





4Videosoft Screen Capture is a versatile screen recording program for Windows 10/8/7, offering a range of features to capture and save video and audio. Its ability to record webcam footage stands out, allowing users to create engaging picture-in-picture videos during gameplay or online meetings. The software serves as a reliable audio recorder, enabling users to capture computer and microphone audio, with recorded files conveniently saved in various formats for offline playback.

Notably, extends its functionality to recording phone screen activities, ensuring smooth display quality and offering adjustable resolutions, along with the ability to take screenshots during the recording process. The software provides extensive customization options, allowing users to configure video and audio settings before capturing, including the choice between full-screen or customized screen recording areas. Real-time editing features enable the addition of shapes, lines, text, and effects during recording, while the software also supports trimming recorded videos to remove unwanted sections.

With its user-friendly interface, the program facilitates easy operation with simple hotkeys for quick control. Users can adjust settings such as duration time for automatic screen capture cessation and highlight the mouse cursor for added convenience during recording. **4Videosoft Screen Capture** emerges as a comprehensive solution, offering a seamless experience for capturing and editing screen activities on Windows devices.
