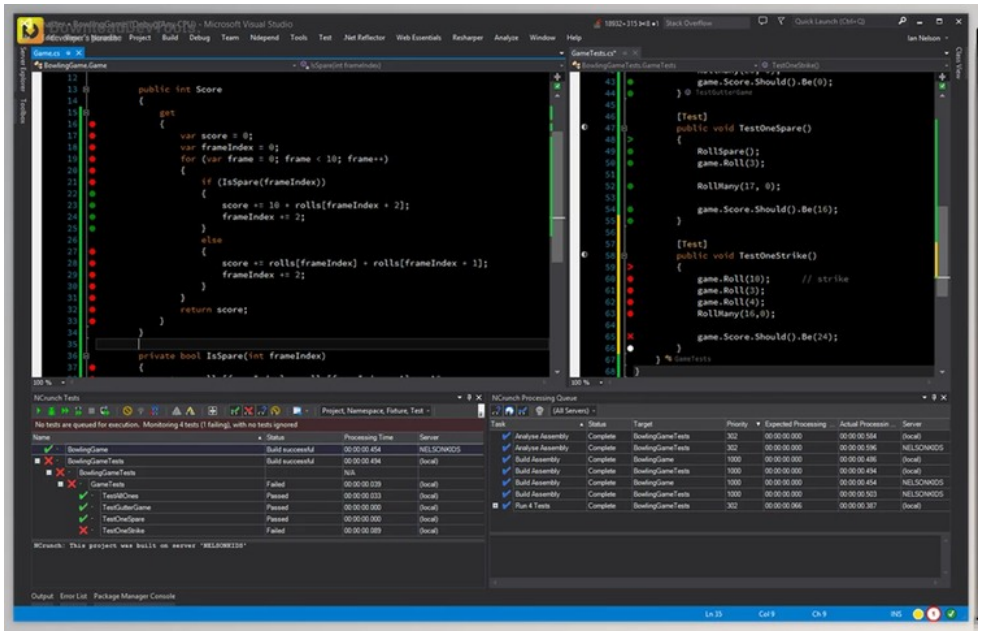
NCrunch v5.16 (26 Jul 2025) for Visual Studio 2015-2022 & Rider

2025-08-13 23:33:43



is a dynamic testing tool designed exclusively for .NET developers, seamlessly integrated into popular IDEs like Visual Studio and JetBrains Rider. Its automated testing extension brings real-time test results and metrics directly inline with your code, eliminating the need for manual test runs and empowering developers to code and test at the speed of thought. With **NCrunch**, tracking code coverage in real-time becomes effortless, providing comprehensive insights into the distribution of test coverage across your project.

Built to handle the demands of large and complex projects, **NCrunch** optimizes performance even in the most intricate development environments. Its intelligent execution prioritizes tests affected by recent code changes, delivering rapid feedback on critical aspects of your application. Additionally, **NCrunch** offers distributed processing capabilities, allowing tasks to be offloaded to other machines or the cloud, effectively utilizing resources across teams.

NCrunch boasts a small footprint and extensive configurability, enabling developers to fine-tune CPU and memory consumption to suit their specific needs. Whether opting for manual or continuous testing, **NCrunch** provides flexibility with customizable filters to control test execution. In resource-constrained settings, **NCrunch**'s ability to selectively run impacted tests minimizes resource usage without compromising testing integrity, ensuring efficient development workflows.

Key Features of **NCrunch** :

1. Real-time test results and metrics in line with the code
2. Automatic concurrent testing for Visual Studio and JetBrains Rider
3. Code coverage tracking in real-time
4. Designed for large and complex projects
5. Smart test execution prioritizes tests impacted by code changes
6. Distributed processing capabilities for offloading tasks to other machines or the cloud
7. Small footprint with configurable CPU and memory consumption

所有软件资源 100%安全 已检测 无病毒 无篡改
