Duende Sounds Evince Cinematic Sound Tools: Create a soundtrack by layering music and components that perfectly match. Utilize seamless loopable sections to increase the size of your soundtrack, not just horizontally but also vertically. Drag and drop -- no knowledge of music is required. A customized commercial license is immediately upon purchase, guaranteeing you complete assurance.

Utilize mood-shaping compositions to create emotion. Over 170 parts of the composition are divided into 11 mood-shaping compositions—Mix, loop, and layer in myriad ways to get the desired emotion. The composition components are excellent both on their own and when layered.
