InnoExtractor 2026 v11.2.0.157 Ultra Multilingual

2025-12-02 13:51:22

InnoExtractor Plus is a robust application leveraging InnoUnp technology to unpack Inno Setup installers efficiently. A user-friendly GUI simplifies the process of exploring and extracting content from installers without the need to run the setup. The application supports drag-and-drop functionality for easy opening of installers, allowing users to delve into the internal structure and extract files to local folders, portable devices, zip packages, or self-extracting modules.

goes beyond essential extraction, offering features like decompiling the "CompiledCode.bin" file to obtain assembly code, which is particularly beneficial for advanced users. InnoExtractor Plus facilitates seamless file searches by keyword, supports password-protected installers through an input panel, and provides a properties panel for advanced installer information. The application supports older and latest versions of Inno Setup and InnoUnp, ensuring compatibility across various setups. With a multilingual interface, it is designed for Windows 11, 10, 8.1, 8, 7, Vista, XP, and 2000, offering full Unicode support and a range of additional options for enhanced functionality.

Key Features of **InnoExtractor Plus**:

1. Unpacks Inno Setup installers using InnoUnp technology.
2. User-friendly GUI for easy navigation and extraction.
3. Supports opening installers through drag-and-drop functionality.
4. Explores the internal structure and content of installers.
5. Extracts files to local folders, portable devices, zip packages, or self-extracting modules.
6. Decompiles the "CompiledCode.bin" file to obtain assembly code (for advanced users).
