To search for similar products to BBE Sound Sonic Sweet,

### Sonic Maximizer:

- For years, musicians and studio engineers have recognized the D82 Sonic Maximizer as the go-to solution for achieving that professional sound and elusive sparkle.

### Harmonic Maximizer:

- The H82 Harmonic Maximizer elevates presence and clarity while restoring natural brightness and introducing deeper, extended low frequencies. Whether applied to individual tracks, an entire mix in the studio, or to enhance live P.A. system sound, it delivers exceptional results.

### Loudness Maximizer:

- The L82 Loudness Maximizer, a multi-band limiter for mixing and mastering, boasts ultimate transparency. It significantly boosts the overall mix level without introducing audible artefacts or unwanted pumping effects.

### Mach 3 Bass:

- The latest addition to the "Sonic Sweet" lineup, Mach 3 Bass, takes low-end frequencies to new sonic depths. Use this plug-in to add a substantial low-end boost to any bass instrument or signal.
- Fully rewritten with the new "Powered by Plugiversity" framework
- Major interface redesign with Retina/HiDPI support for compatible hosts
- Optimized sound treatment algorithms, reducing CPU usage by up to 50%
- VST3 support for Mac and Windows (32/64 bit)
- Touch screen support
- A/B switch with copy and swap functions
- Help tooltips for knob adjustments
- Automatic update checks
- Streamlined activation process integrated into the plug-in
- Pro Tools automation menu & colours
