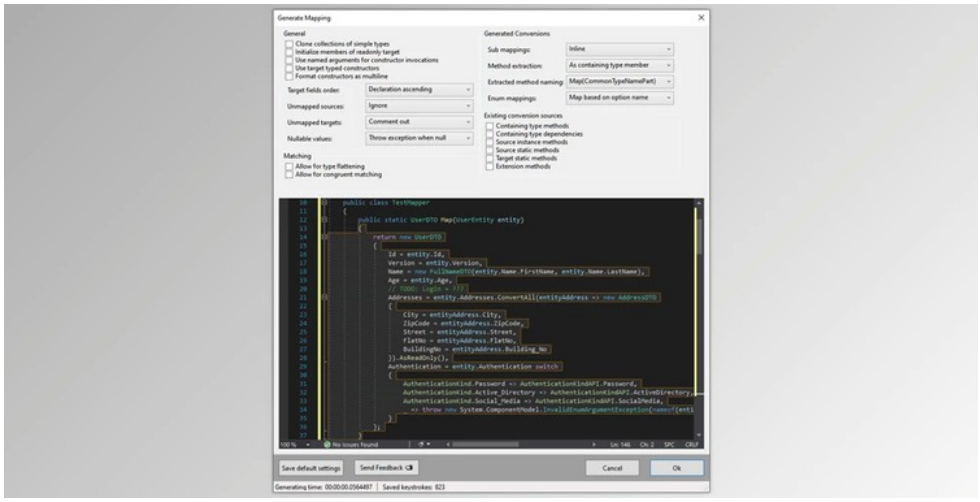

MappingGenerator PRO v2023.7.61 (01 Aug 2023) for Visual Studio 2019-2022

2026-09-30 18:12:03

MappingGenerator PRO v2023.7.61 (01 Aug 2023) for Visual Studio 2019-2022

MappingGenerator was initially designed as a design-time replacement to AutoMapper. The program is now developing into a coding aid which you can delegate even the most tedious code-related tasks:

- Generate Mappings
- Generate Explicit Conversions
- Implement Cloning
- Complete Method Invocation
- Complete Initialization Blocks
- Generate Projection Expressions

MappingGenerator creates mapping code in design time. This method has many advantages over runtime mappings.

- Misleading Static Analysis
- Helpless Code Navigation
- Broken Code Organization
- Hard To Debug

- Easy To Adjust
- Easy To Maintain
- Easy To Review
- Easy To Debug
- No Runtime Surprises

MappingGenerator PRO for Visual StudioGreat Features:

Control the mapping code shape with a dedicated UI settings panel.

Experiment with different mapping options and see the effect immediately in the preview box.

Generate implementation for fields representing mapping projections.

Define interface with mapping methods and generate implementation with a single run.

Even less typing with specialized converters that adjust the sides of mappings.

Get even more mapping matches for divergent models with type flattening and congruent matching rules.
