Maxim Gustarev- Action Panel: I've just gathered those actions I employ myself. There aren't numerous of these, however, they are distinctive and intricate. Without water, and without the essential "warmer color" "colder color" "less brightness". Only hardcore! With the most complicated sequences, you can't complete "manually".

- Block in green** As you see, it's bound with that F5 key. It's already pressing on my keyboard because every photograph I take, I employ these actions! G1. When you press it when it is pressed, it is activated. (a face of a person for example) is divided into two layers that are smart which are high and low frequency. The face is cleaned. G2. After retouching the image, hit shift+F5 and the frequency decomposition is collapsed using the right blend modes, and also using the correct adjust curves.
- Purple Block** - LA I'm sure you'll be able to do it by yourself, simply click the button and see what happens when you change the color of the image.
- Block in red** Instagram
Two actions of splitting the canvas into two and 3 slides to create an omnidirectional Instagram carousel. If you take any picture click the button, select the global crop option and you're done!
- Block in gray** Technical block
Here, I've filed actions to resize a lot of files. For instance photos from my trips. I put together a folder that contained 100 photos, and when I got them out, they turned sharp. Inside action creates blur (background ambiance). The action is the main stretching of my anamorph.
- Block of yellow** Work with color correction Here are methods for cleaning color smart saturation masks, as well as amazing toning effects like Albi
- Block in orange** works using volume
O1. It is a binding tool that works with the F6 key, which is also a must-have. Creates the proper layer by using the correct settings and also activates the dodge tool for manual drawing the volume.
O2, O3. Automatic volume draw.
O4. The most beautiful of creations. Button Make it cool! The skin becomes hyper-volume similar to Krutans.
O5. Similar to O4 however with tricky masking of the lights.
O6. Choose the lasso, then make a cut and the operation does the rest
