Ashampoo Backup Pro v27.5.58 Mutilingual

2026-04-14 15:31:20

Ashampoo Backup Pro is a versatile, user-friendly solution addressing malware infections, hard disk defects, and Windows crashes. Supporting local and online storage, it offers effortless backup options from single files to entire partitions. The real-time backup technology keeps crucial folders monitored for file changes, enhancing security against unexpected system issues.

The plug-and-play feature simplifies external device backups, automatically running plans when connected drives are detected. For system failures, the state-of-the-art rescue system allows easy restoration from a DVD or USB stick, eliminating the need for a full Windows reinstall. Notably, the software supports BitLocker-encrypted drives and actively monitors hard disk health during backups, operating efficiently in the background without causing strain on system resources.

Catering to users of all levels, it provides flexible backup plans with presets for quick setup and the option for highly customized plans. Designed for business use, it meets professional standards with a solid backup engine, constant file verification, and strong encryption. The Backup Viewer feature allows users to view archive contents without restoring them, ensuring complete control over backup data. combines simplicity with powerful features for a reliable data protection solution.

Key Features of **Ashampoo Backup Pro**:

1. Comprehensive backup solution for malware infections, hard disk defects, and Windows crashes
2. Versatile storage options for single files to entire partitions, supporting local drives and online storage providers
3. Real-time backup technology monitors important folders for file changes, ensuring up-to-date backups
4. Plug & play functionality for effortless external device backups, automatically running plans when drives are connected

所有软件资源 100%安全 已检测 无病毒 无篡改
