Chuvakhin Presets are for use in Adobe Photoshop and Adobe Lightroom on a pc just.

The presets are for RAW photos just and should be Utilized at a Creation version of Lightroom. These are not filters Which You Can use within a Program on your mobile phone. Chuvakhin Presets work differently on each picture depending On light, colors, etc. You might want to tweak the presets somewhat.

For Adobe Lightroom 6 (CC), 4 & 5. and ACR Presets for Photoshop CC & CS6.
