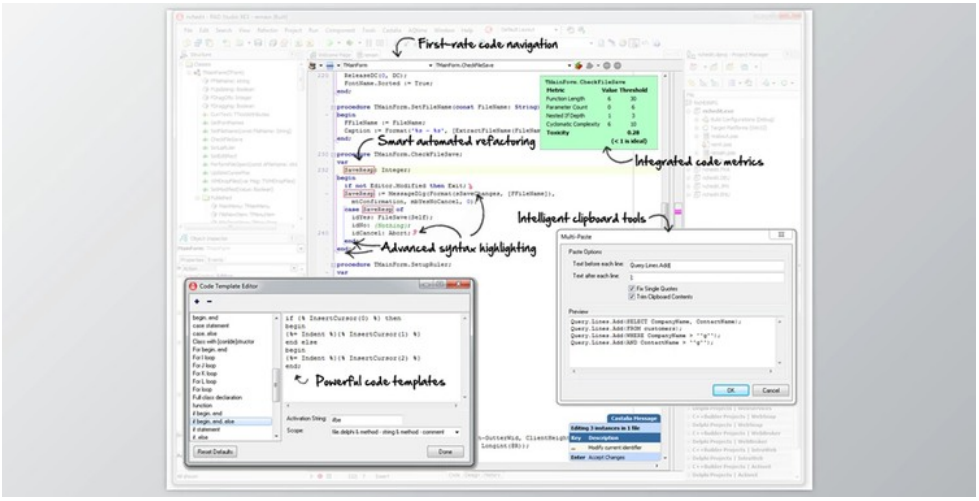
TwoDesk Castalia Suite v2014.12 for Delphi 5-XE7 Retail

2025-01-25 07:41:55



Castalia for Delphi is a top tool for productivity in code compatible with Delphi. It is a powerful code productivity plugin for Delphi Integrated Development Environment. With the ability to refactor code, highlight structurally parenthesis match, highlight, flow control, and live syntax check, Castalia makes you more efficient than ever before. Utilize the project statistics and analysis of code to understand your team's performance and code quality.

It is now possible to download Castalia available for Delphi XE7, which is fantastic - a great tool. But, I've always believed I was wrong. With removal, refactoring was working on the entire project to eliminate all within one go. It seems that you must put the cursor over the line and then click With to do it one at a time. But it's cool nonetheless.

Castalia is a top plugin for code productivity that works with Delphi. With code refactoring and parenthesis match, structural highlighting and highlight, flow control, along living syntax testing, Castalia makes you more efficient than ever before. Use the project statistics and code analysis to understand better your team's efficiency and the quality of your code.
