is a powerful tool designed to help you quickly and accurately detect plagiarism in your work, whether for research papers, blogs, assignments, or websites. It scans your text for similarities across billions of web pages in just a few seconds, making it easy to ensure originality. This tool is widely used in over 120 countries by students, teachers, writers, and marketers to safeguard against duplication and improve the quality of their content.

With support for more than 250 languages, **Plagiarism Checker X** removes language barriers and enables users worldwide to check their content in multiple file formats, including Word documents, PDFs, and spreadsheets. The tool also features a side-by-side comparison function, allowing you to compare two documents directly to identify duplicated sections. For educators, the Bulk Search feature makes grading large batches of assignments a breeze by scanning multiple documents at once.

In addition to plagiarism detection, **Plagiarism Checker X** includes helpful features like a readability checker to evaluate how easy your content is to read and options to exclude quotes and bibliographies to meet academic standards. It also provides detailed, colour-coded reports highlighting similarities and QR codes to verify the report's authenticity.

Key Features of **Plagiarism Checker X**:
