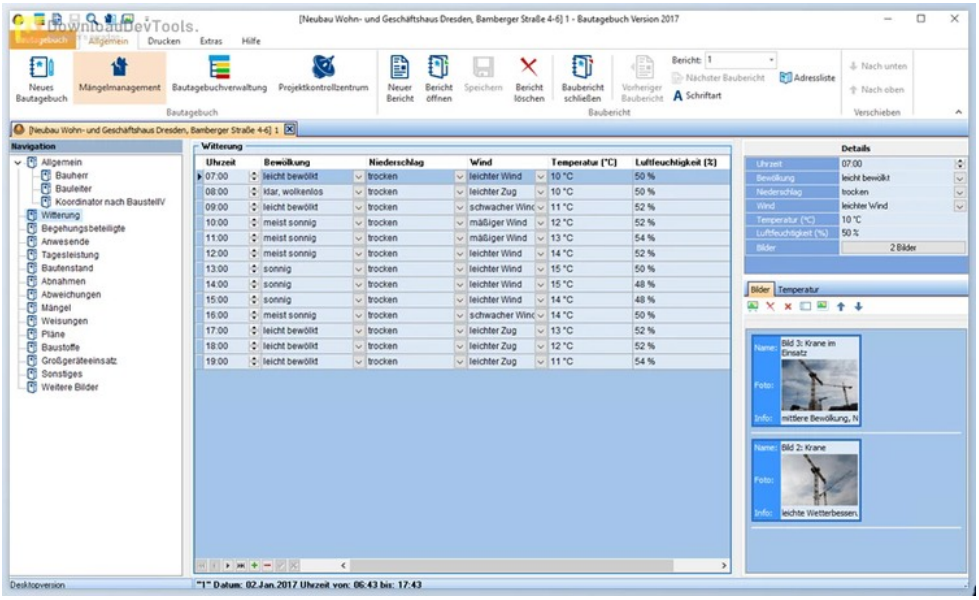
Weise Software Bautagebuch v2024.2.9.0 Bilingual

2025-01-06 23:00:03



is a powerful tool for documenting every detail of your construction projects. It's designed to make it easy to create and manage construction diaries and site reports while keeping everything organized in one place. The user-friendly software offers a clean layout that can be customized to suit your specific needs. Whether you're tracking progress, documenting defects, or managing construction meetings, Bautagebuch 2024 is a reliable companion for your daily work.

The software also comes with a mobile app for Android and iOS, allowing you to record data directly from the construction site. With seamless synchronization between the app and the desktop version, you can capture real-time information, take and edit photos, and monitor live weather data, all while on-site. This flexibility ensures you have access to crucial project details anytime, anywhere, making on-site documentation faster and more accurate.

In addition to handling general project information and contacts, the software records everything from weather conditions and daily tasks to deviations and equipment usage. Photos can be added to your reports for visual documentation, and various report templates are available for easy printing. Optional modules, like defect management, offer even more ways to customize your experience, making **Weise Software Bautagebuch** a complete solution for construction site documentation.

Key Features of **Weise Software Bautagebuch** :

1. Unlimited Diaries and Reports: Create and manage as many construction diaries and reports as needed without limits.
2. Mobile App: Record and sync data directly from the construction site using a free app available on both Android and iOS.
3. Defect Management: Track defects, ensuring nothing slips through the cracks.
4. Construction Meeting Minutes: Document important discussions and decisions during construction meetings.
5. Image Management and Editing: Attach photos to your reports, edit them, and manage them through an integrated database.
6. Real-Time Data Capture: Access live weather information and monitor the construction status on-site.
7. Customizable Report Templates: Choose from various templates for printing reports and tailor them to fit your preferences.
