Vue File Manager v1.8.3 (17 Apr 2021) - Store, Share & Get Files Instantly - Private Cloud Build on Vue & Laravel

2025-01-02 12:35:06   label 我要反馈   下载页面

Create your Personal Cloud Using VueFileManager Customer powered by Laravel and Vue.

Handle your files and folders using Vue File Manager customer powered by Laravel API endpoint.

You can interpret all program language text to your language and place it default to all of your users. It is quite simple. Just make a new language and begin rewriting default strings.

Now you can preview your pdf files right into Vue File Manager; simply double click in your own pdf file.
