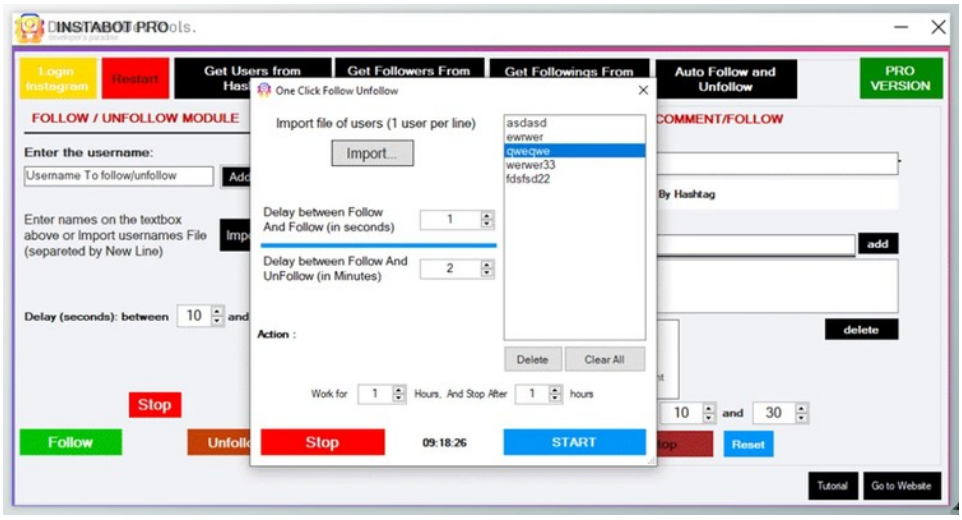
InstaBot Pro v7.3.1

2026-03-13 14:48:45



InstaBot Pro is a powerful software solution designed to streamline your Instagram marketing efforts by automating various engagement tasks and attracting real, active followers to your profile. With a range of features, including auto follow, auto like, auto comments, and bulk message sender, it offers comprehensive tools to enhance your interactions and expand your follower base.

This professional marketing tool enables you to extract followers and profiles by hashtags, automatically follow new users based on specific criteria, and even engage in automated liking and commenting activities. With **InstaBot Pro**'s auto delay feature, all operations are executed with randomized delays to mitigate the risk of account suspension, ensuring a safe and effective approach to Instagram growth.

By leveraging the innate curiosity of Instagram users who often explore profiles that interact with their content, strategically increases your profile visibility and engagement. Automated likes, comments, and follows targeted at relevant accounts foster a genuine interest in your content, leading to an organic increase in followers. With support for unlimited accounts, **InstaBot Pro** offers flexibility and scalability for managing multiple profiles effortlessly.

Key Features of **InstaBot Pro**:

1. Instagram scraper for extracting followers/following and users by hashtag
2. Auto like/unlike targeted posts automatically
3. Auto messages and comments to targeted users or posts
4. Follow and unfollow strategy to increase followers
5. Export followers of other profiles and users based on specific hashtags
6. Automatic following of new, profiled users based on hashtags or similar accounts
7. Auto unfollow function to remove new followers who haven't followed back
8. Automatic liking of profiles based on hashtags or similar accounts
9. Auto commenting on photos based on hashtags or similar accounts, with customizable comments
10. Random delay for all operations to reduce account suspension risk
11. Support for unlimited accounts for seamless management
