

Adobe Character Animator – Make Your First Cartoon Today!

2025-02-10 16:52:33 [label](#) [我要反馈](#) [下载页面](#)

Requirements

- No prior programming knowledge is required. You'll learn everything you need to know to make your very first animated film.

Are you looking to add animation to your skills? It's much easier than you think with our new course on Adobe Character Animator - also called Adobe CH where we'll teach students how to create their personal cartoon animations in a concise and simple method. Join us today to learn this highly sought-after art.

As you probably already know, Adobe Character Animator is an Emmy Award-winning desktop software that integrates live motion capture in real-time with an advanced multi-track recording system that allows you to manage layers of 2D puppets. This course will give you the information you require to begin animating right now. This is an excellent starting point for your future career as an animator.

Agenda:

- Initial Set-up of Adobe Character Animator (CH)
- Basics of Character the Puppet's Personalization inside CH
- Change your background, and/or setting. Ever wanted to deliver an address at your own White House, or sing from the top of the highest mountain? You now have the opportunity, or at the very least, your puppet will!
- Learn the fundamentals of the Character Animator Timeline functionality and eventually, how to integrate with both Audio as well as Visual elements within the Timeline
- Learn how to convert your animation into a format that is sharable. This allows you to directly post to social media platforms or modify your video using video editing software like Adobe Premier Pro or iMovie

Who is this course intended for:

- Animation for beginners and skilled creators looking to expand their animation.
- Sales Enablement professionals
