DesignToolBox v2.9.6.0 for 3ds Max 2016 – 2024

2025-02-10 16:50:18   label 我要反馈   下载页面

DesignToolBox v2.9.6.0 for 3ds Max 2016 – 2024: DesignToolbox is a set of tools designed to speed up and make simpler the basic modeling tasks of urban, architectural, or interior scene tools: Normal transformations using reference as used in more precise work-oriented software; Rapid measurements, which speed up the positioning of workplaces and reference coordinates. It also includes valuable tools that allow you to swiftly apply and manipulate Uvw maps to create panels on simple surfaces. It also includes other time-saving tools.

- Set up according to the installed 3ds Max software
- Operating System: Windows 7/8 / 8.1 / 10/11
- Memory (RAM): Requires 1 GB of RAM.
- Space on the hard disk: 1GB of space free.
- Processors: Intel Dual Core processor or greater.

- **Transform -** Precise CAD-like transforms.
- **Measure -** Dimensions, areas of inquiry...
- **Construct -** Space reference objects.
- **Replicate -** Find properties and replace nodes with a few clicks.
- **Clone -** Interactive arrays, Create patterns and divide elements.
- **Modify -** Combine and remove geometry in just one click. The stamp can be used to overlay a mesh...
- **Organize and manage -** Accelerate your work with layers and manage the visibility of nodes. You can isolate objects within local space and nested isolating...
- **Making the scene -** Check out cameras and output sizes quicker, and set the view of a batch in fewer clicks. Replace all scene materials in a couple of clicks.
- **Utilities -** Edit and randomly apply UVW modifiers to several objects simultaneously to detail furniture cabinets and other useful tools.
