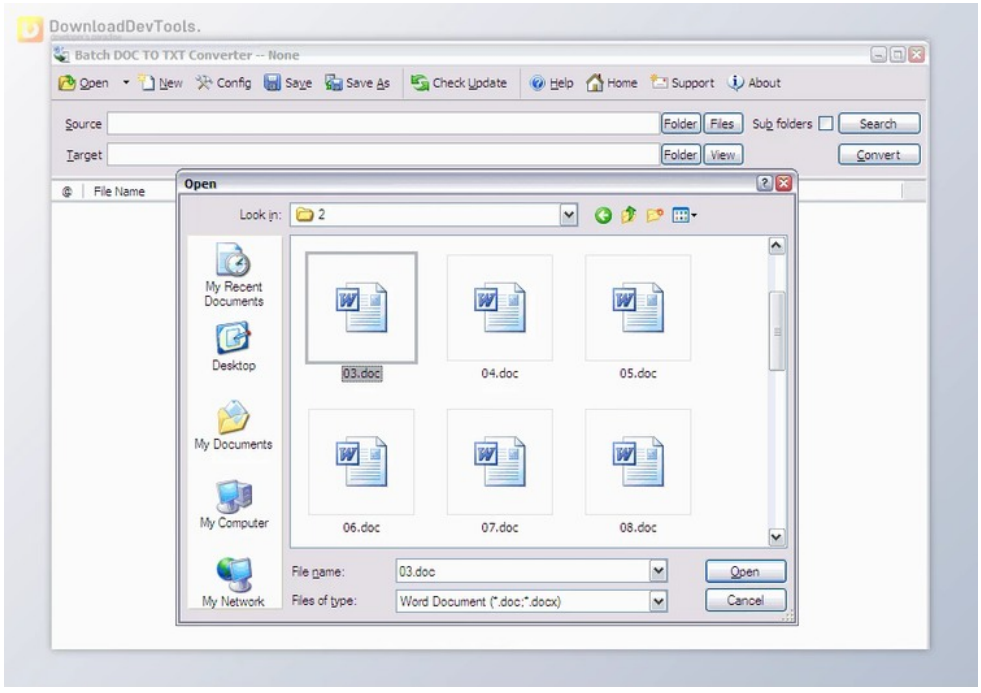
Batch DOC to TXT Converter v2025.17.916.2423

2025-11-09 16:39:19



is a user-friendly software designed to help you convert Word documents (DOC/DOCX) into plain text (TXT) in large batches. With its intuitive interface, you can easily convert individual Word files or folders full of documents with just a few clicks. Whether you need to convert a single document or hundreds at a time, this tool makes the process simple and efficient.

One of the standout features of this converter is its ability to handle batch projects. You can save your conversion tasks into project files for reuse, which can be easily run again later either through the software or via the command line. The drag-and-drop functionality and support for Windows Explorer's context menu make selecting files and initiating conversions even easier.

Additionally, **Batch DOC to TXT Converter** includes a high-speed multi-threaded engine, allowing for fast and smooth conversions. You can pause or stop the conversion process whenever needed and resume it later without losing any progress. It's ideal for users who handle large amounts of documents and need a reliable tool to automate the conversion process.

Key Features of **Batch DOC to TXT Converter** :

1. Batch Conversion: Convert multiple DOC/DOCX files to TXT simultaneously, saving time and effort.
2. User-Friendly Interface: Simple GUI with powerful search functionality makes navigating and finding files for conversion easy.
3. Individual and Folder Conversion: Convert single files or entire folders of documents.
4. Windows Integration: Drag-and-drop functionality and context menu support in Microsoft Explorer for quick file selection.
5. Project and Command Line Support: For automation, save conversion tasks as project files (.batch-doc2txt) and run them via the command line or Explorer.
