

## Aescripts hydrochrome v1.1.1 (Win)

2025-02-10 16:50:33    [label](#)    [我要反馈](#)    [下载页面](#)

**HydroChrome** is a GPU effect for Adobe Premiere Pro and After Effects, enabling the creation of abstract flowing backgrounds and chromifying footage in real-time.

### How to create abstract flow backgrounds and chrome images?

You can use "Aescripts hydrochrome" to design your project.

It allows for quick and cool visual effects, including seamless looping by disabling Follow Comp Time and animating the Time Offset. HydroChrome is compatible with After Effects on both Windows and Mac (Intel & Silicon) with macOS 12.0 or higher.
