**Articulated Sounds – Quiet Streets:** A gentle breeze, the city rumble flying, insects, birds, and rain. The quiet in this city can be a delicate and memorable instant...

The city streets are the conduits of all possibilities. They're a hot spot to experience sensory stimulation, connecting people's living their lives and their daily activities during the entire day. Even when it is quiet, we are still able to feel the excitement. We can feel the atmosphere and be at peace.

## Gfx plugin details of Articulated Sounds – Quiet Streets

The product is in the **SOUND EFFECTS** category, for more information about this post you can click on the home page link in the sidebar.

The recordings were recorded on the ground with an only little editing to maintain their authenticity. Therefore, they are designed to be as real to the way a person experiences the city on a daily basis. In certain instances, specific events can be heard from some distance, however, the loudest events were filtered out. Each file can be looped. Additionally, every season and weather pattern is depicted. This library has been designed to meet the need for a universal sound bed in urban environments, which is utilized for glue or as an 'exterior sound'.

The selection below is the result of fifteen months of recording across the cities of Montreal (considered the largest European city in North America). In Montreal, the mixture of cultures within the city creates an international flavor that proves it part of the world of the 21st Century. Weather conditions and seasons were captured.

It is accessible in stereo as well as surround (Quad).

- 60 Stereo ambiance and 27 Surround recordings ranging from 1 to 5 minutes each
- Different settings, locations and times of day
- Diverse weather conditions such as sun storm, wind, rain snow...
