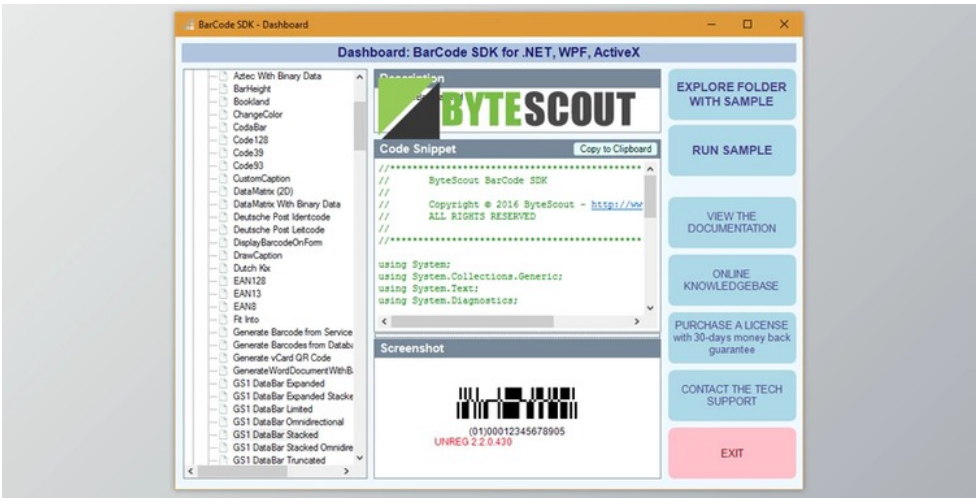
Bytescout BarCode Generator SDK v7.6.3.1248 (14 Jul 2023)

2024-12-29 12:30:38



Bytescout BarCode Generator SDK supplies you with a set of programming elements for both desktop and internet applications. As its name implies, programmers should utilize it who want to improve their applications with barcode production functions.

The bundle incorporates multiple kinds of elements: Windows Forms controls for Winforms programs, WebImage controllers, and SSRS controls for ASP.NET, in addition to non-visual .NET and ActiveX classes for creating barcode images immediately.

Bytescout BarCode Generator SDK makes it feasible to export created barcodes into EMF, JPG, PNG, GIF, or TIF graphics. It's also capable of incorporating barcodes into PDF files without needing additional applications.

Numerous source code samples are contained in the downloadable bundle, and you're able to make the most of this purpose-built sample browser to see and operate them.

The illustrations cover all of the supported platforms and languages. They exhibit each part's capabilities to make it much easier to understand how they may improve your software's performance.

BarCode SDK key advantages

- Adds barcodes into PDF files (no additional software required);
- Includes elements for desktop and internet software development: .NET course, WinForms Control, ASP.NET Internet Picture control, SSRS reporting support, ActiveX port to Create barcodes from Visual Basic 6, Classic ASP, Delphi, Javascript, Word, and Excel VBA;
- Works offline with no Internet connection needed;
- Arrives with comprehensive documentation (100+ source code samples included for all supported platforms and languages);
- Supports nearly all 1D linear and 2D (multidimensional) barcodes, such as MaxiCode barcode, MicroQR Code (2D), HanXinCode (2D) -- NEW!
- Mono .NET Length harmonious;
- Made with 100 percent C# code. NET (discretionary source code certificate can be obtained);
- Generates batch barcodes with a specified set of values;
- Supports nearly all 1D barcode types (Code39, ISBN, and Several other), Together with supplemental EAN-2 and EAN-5 barcodes;
- Supports nearly all 2D barcode types: Aztec (2D), PDF417 (2D), PDF417 truncated (2D), DataMatrix (2D using ECC200 error correction service), QR Code (2D), MicroQR Code (2D), HanXinCode (2D) -- NEW!
- Supports GS1 barcodes (also Called RSS): GS1 Code 128, GS1 DataMatrix, GS1 Databar Omnidirectional, GS1 Databar Stacked, GS1 Databar Omnidirectional, GS1 DataBar Truncated;
- Includes built-in Automated validation;
- Allows to alter visual look: font size, font size, foreground, and background colors;
- Exports created barcode as EMF (vector metafile), JPG, PNG, GIF, TIF pictures;
- Draws created barcode on printer or control .hDC (in both ActiveX and. NET versions of the SDK);
- Supports Neighborhood Reports (RDLC) and SSRS accounts for ASP.NET.
