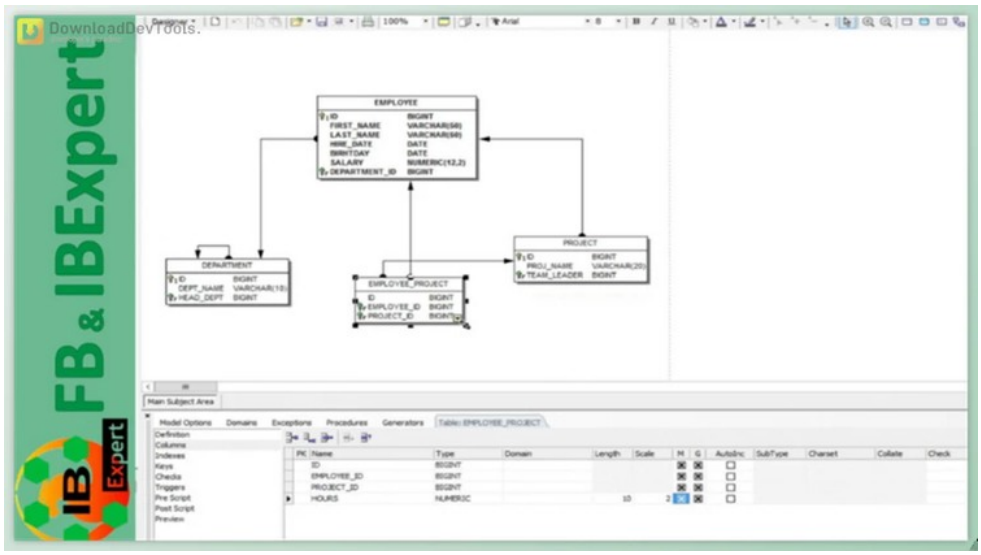
# IBExpert Developer Studio v2026.6.2.1 (02 Jun 2026)

2026-06-15 22:40:01



**IBExpert Developer Studio** is a professional, integrated development environment (IDE) tailored for expanding and administrating InterBase and Firebird databases. This comprehensive toolset offers a multitude of features for developers, including visual editors for all Database Objects, SQL Editor, iScript Executive, and a Debugger for stored procedures, among others. Renowned for its extensive capabilities, IBExpert remains user-friendly and doesn't demand specialized skills. Visual database management allows users to operate efficiently without delving into DDL or DML syntax, making database tasks faster and more convenient.

Key features of include full support for Unicode, robust monitoring and optimization of database performance, the ability to execute advanced SQL queries through scripts, and the capability to create new databases using a model. The program facilitates tasks such as copying and comparing data, speeding up procedures and triggers, and managing user rights. IBExpert also boasts an extensive reporting module, allowing users to extract metadata for creating a copy of the database structure. Furthermore, the tool supports data export to CSV via ODBC, contributing to seamless data management.

**IBExpert Developer Studio** encompasses the IBExpert IDE, providing an intuitive environment for database management. It also includes Server Tools for administrative tasks, IBExpertDemoDB, a test database for performance testing, and IBExpertLive, a data streaming service.

## Key Features of **IBExpert Developer Studio** :

1. Professional IDE for InterBase and Firebird databases
2. Visual editors for all Database Objects
3. SQL Editor and iScript Executive
4. Debugger for stored procedures
5. User-friendly and does not require specialized skills
6. Visual database management without needing DDL or DML syntax knowledge
7. Full support for Unicode
8. Monitoring and optimization of database performance
9. Execution of advanced SQL queries using scripts

所有软件资源 100%安全 已检测 无病毒 无篡改
