TEC-IT TBarCode SDK is a versatile barcode generation solution catering to both Microsoft® Office users and software developers. Over two decades of proven reliability, it offers exceptional quality in creating and printing various industry-standard barcode symbologies. TBarCode SDK's extensive support for over 100 barcode symbologies, from standalone applications to server-based systems and reporting applications, makes it a preferred choice across diverse industries.

This comprehensive SDK provides three distinct barcode creation modules within a single download, ensuring flexibility in embedding barcodes into projects. Whether it's seamless integration with Microsoft Office using Barcode ActiveX® Control (OCX), advanced barcode creation for .NET programmers, or barcode generation within custom applications using the Barcode DLL, TBarCode SDK caters to various development environments and platforms.

Featuring support for all major linear and 2D barcode variants, compatibility with all printers, versatility across programming languages, high-quality barcode rendering, and cross-platform API availability, delivers unmatched flexibility and efficiency for barcode generation needs. Whether utilized in Microsoft Office, server systems, ERP systems, reporting services, or custom applications, TBarCode SDK is a comprehensive solution for all barcode creation and printing requirements.

Key Features of **TEC-IT TBarCode SDK** :

1. TBarCode SDK offers barcode printing for Microsoft® Office users and software developers
2. Supports creation and printing of all barcode symbologies used in industry and commerce
3. Over 20 years of proven reliability and unmatched versatility
4. Extensive support for linear, postal, and 2D barcode symbologies (more than 100 barcode symbologies in total)
5. Three barcode creation modules: Barcode ActiveX® Control (OCX), .NET Barcode Assembly, and Barcode DLL
6. Compatible with Delphi/C++ Builder 10.4 - 12
7. Source code included in full version for customization
8. Royalty-free distribution in applications for hassle-free deployment
