Infopulse PACE Suite Enterprise v6.0.0.30 (06 Oct 2023) + Potable Edition

2024-12-29 13:57:11

PACE Package is an all-purpose packing solution that eases the speedy deployment of jobs of all sizes. Appropriate for salespeople, business IT departments, and big development businesses alike, it offers the tools required to make software packages and handle future upgrades easily. The intuitive interface and numerous useful wizards make packaging as straightforward as you can while providing a complete set of innovative capabilities. PACE Suite versions have a favorable per-engineer licensing model, which lets you keep prices low. PACE Package is always current with two new significant versions each year. PACE Suite includes MSI Generator, MSI Editor, Quality Approver, and DOCU Generator.

With PACE you can:

- Repackage any installment to a pure Windows Installer (MSI, MST), MSIX/AppX, or Microsoft Application Virtualization (App-V), and Program Virtualization (ThinApp) packs.
- Produce and edit virtual (App-V, ThinApp) packs.
- Produce and edit Windows Installer (MSI) packages, Transforms (MST) for customizing packages, and Patch (MSP) packs for providing program upgrades.
- Publish packs to Microsoft SCCM servers.
- Automate regular packaging activities by conducting...

PACE Bundle is the quickest application packaging tool that allows you to make MSI, MSIX, Appx, App-V, and ThinApp packs, edit them and enhance quality, security & installation readiness checks with the assistance of smart, incremental Wizards.

- Grab installations remotely on multiple virtual machines hosted on the ESXi, Hyper-V, and VirtualBox hypervisors
- Automate bundle quality, security, and installation readiness checks
- Produce Windows Installer package, edit it, produce changes, patches
- Repackage any installer into an MSI, MSIX, APPX, or a virtualization format
- Publish MSI package to Microsoft SCCM
- Automation of regular packaging jobs
- Estimate MSI bundle sophistication and create package documentation
- Make and edit virtual bundles (App-V, ThinApp)
