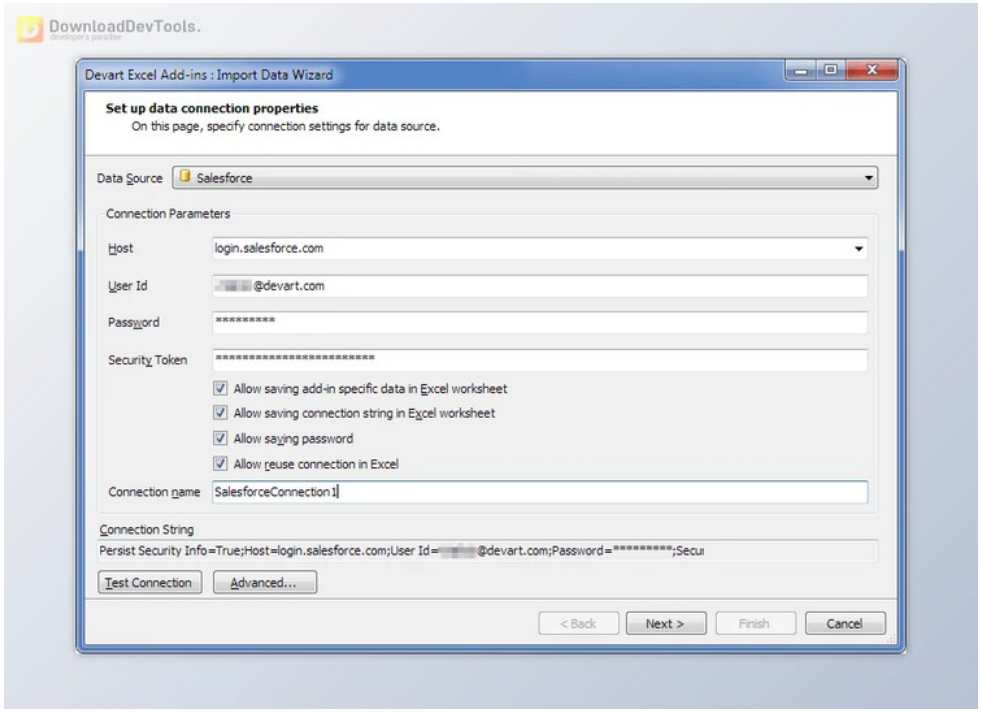
Devart Excel Addins v2.10.1514.0 (06 Feb 2025)

2025-08-08 10:26:21



Devart Excel Addins offer a seamless solution, connecting Microsoft Excel to various data sources and enabling direct interaction with live data within Excel. The **Devart Excel Addins** provides a comprehensive set of all Excel Add-ins, allowing access to over 20 cloud applications and databases directly from Excel at an incredible discount of over 80% compared to purchasing them separately.

Connect Excel to a wide range of cloud applications and databases, obtaining their data directly in Excel. Utilize the Visual Query Builder to choose tables, select columns, and visually set filter conditions and data ordering options. For more precise data selection, use SQL queries, including advanced SQL support for cloud apps, enabling more complex queries than the native API.

Easily refresh data whenever needed, maintaining fresh data from the source in your workbook. Edit cloud and database data in Excel by clicking the Edit Mode button, enabling data modification as you would with any Excel spreadsheet. All changes are highlighted for easy identification, with options to commit changes to the data source or rollback. Instant data validation verifies entered data, highlighting errors such as incorrect dates or duplicate primary key values. With , data management becomes more efficient and convenient directly from within Excel, empowering users with advanced connectivity and data manipulation capabilities.

Key Features of **Devart Excel Addins**:

1. **Connectivity:** Connect Excel directly to various cloud applications and databases, retrieving data directly into Excel.
2. **Query Building:** Utilize Query Builder or SQL to import the required data visually or through advanced SQL support for cloud apps.

所有软件资源 100%安全 已检测 无病毒 无篡改
