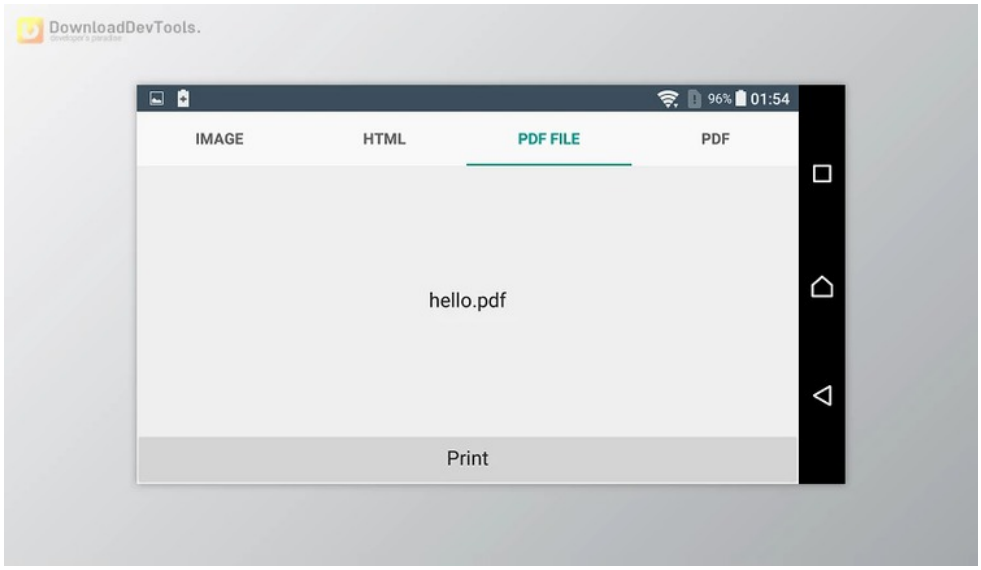
Winsoft Printing Library for Android v2.9 for Delphi & CB 10.4-12 Athens Full Source

2025-01-02 12:15:02



is a versatile printing solution for Delphi and C++ Builder applications targeting Android platforms. Leveraging the Android Print and PrintHelper API, this library enables seamless printing of various content types, including images, texts, HTML pages, PDF files, and dynamically generated PDF documents. It is compatible with Android 4.4 KitKat and higher versions, ensuring broad device support. With support for Delphi/C++ Builder versions 10.4 through 12, developers can easily integrate printing capabilities into their Android applications. Additionally, the library comes with complete source code in the registered version and offers royalty-free application distribution rights, providing developers with flexibility and ease of use.
