

ImageEn FMX v1.0.0 Beta for Delphi 10.3-10.4 Sydney Full Source

2025-06-25 12:57:14

We have now released a beta version of ImageEn/FireMonkey. At this time, only Windows targets are supported, and other platforms are planned.

ImageEn FMX Great Features:

Any Dialogs

- ImageEn open/save dialogs
- Built-in image effects dialog (TImageEnProc.DoPreviews)
- Built-in image I/O properties dialog (TImageEnIO.DoPreviews)
- Layer Properties dialog
- Printing and Print Preview dialogs

Any Windows Features

- Windows shell components and features (such as video thumbnails)
- TIEFolderMView
- WIC file formats and features
- GDI
- Rich formatting for text layers
- AVI and Meta-File support

Other

- Image Acquisition (Twain, WIA, WPD)
- Video Acquisition (DirectShow, MMF)
- Support for plug-ins like ImageMagick and WpViewPDF
- Legacy components: TImageEnVect, THSVBox and TGradientBox
