FilmLight BaseLight for Avid: its advanced color grading tools across the entire FilmLight product range, including Baselight Editions and Daylight. Baselight Editions integrates directly into Avid, offering real-time, renderless workflows with unlimited color layers, mattes, feathering, and tracking, enhancing collaboration between departments without needing to render grades.

The plugin supports Baselight Grade File (BLG) for streamlined, bidirectional exchanges of grading data across systems, ensuring the creative intent is preserved.

"FilmLight BaseLight" Sample:

GPU-accelerated rendering, real-time client monitoring, temporal operations (Denoise, Deflicker), and automated tracking for precise object motion. Baselight for Avid facilitates efficient grading, with tools like the Shot Bar for quick navigation and subdivided options to fine-tune grades for individual clips.
