Meridian - Cara Mia Aurorais a collection of 80 opalescent Lightroom presets inspired by the northern lights, iridescent seashells, and prism reflections. Designed to unleash creativity, these presets use pastel color masks in 20 variations with four application styles: all-over, center, left, and right. Each effect enhances photos with dreamy, ethereal hues, offering endless possibilities for transforming images. Perfect for adding depth, vibrance, and unique color flows, Aurora Effects invites you to explore limitless creative potential.
