Apple macOS Sequoia v15.6.1 (24G90) Multilingual + Hackintosh

2025-09-06 11:37:39

is designed to make your Mac sharper, smarter, and more efficient. It introduces dynamic tools for managing your workspace, allowing you to arrange windows effortlessly and mirror your iPhone directly from your Mac. With a focus on enhancing user experience, you can easily browse the web, communicate with Siri, and manage notifications. Apple Intelligence offers personalized suggestions to simplify tasks based on how you use your Mac.

Continuity is a key feature in **Apple macOS Sequoia**, letting you seamlessly move between your Mac and iPhone. Whether it's receiving iPhone notifications on your Mac or dragging and dropping files between devices, the experience feels more integrated than ever. Updates to apps like Safari and Messages make it easier to pull up information quickly or express yourself creatively with new emojis, stickers, and scheduled messaging options. Plus, gaming performance gets a boost, with new titles optimized for Apple silicon.

In addition to productivity tools, **Apple macOS Sequoia** also enhances privacy, security, and accessibility. From storing passwords securely across devices to offering tools like live audio transcription in Notes, this version helps you stay organized and protected. Whether you're into video calls, hiking, or gaming, the updated apps, smarter Siri, and enhanced AirPods functionality ensure you're covered in all aspects of digital life.

Key Features of **Apple macOS Sequoia** :

1. Apple Intelligence: This feature offers personalized suggestions based on your activity, and it is available on Macs with Apple silicon, helping streamline tasks.
2. iPhone Mirroring & Continuity: View and control your iPhone from your Mac, receive iPhone notifications, and drag and drop files seamlessly between devices.
3. Window Management: Easily tile windows and arrange them using keyboard shortcuts, making multitasking smoother.
4. Safari Updates: Features Highlights to pull up key site info quickly, and a redesigned Reader with article summaries and table of contents.
5. Message Enhancements: Send scheduled messages, use any emoji or sticker to react, and get more creative with text.
