LLFx – Lens Flare Volume 1 is a unique technology that converts optically captured lens flares into Lightroom & Photoshop. This bridges the gap between photo-editing software and the real thing. You can make your images stand out by adding some flair to make them unique.

Choose from a variety of lens flares designed to enhance depth and layers in your images. This set includes 30 brush presets that were taken from the Leica Sumilux50mm, the Nikon Nikkor 14-24mm, and the Zeiss batis 85mm.

What's included?

LLFx presets are unique and offer something different. The Lens Flare V1 set contains 30 brush presets. These were taken from the Nikon Nikkor 14-24mm and Leica Sumilux 50mm. Each preset includes 10 main lens flares with three variations. You can combine and modify flares with the Lightroom plugin. To fully utilize Lightroom, you must use the LLFx plugin.

This SOFTWARE is what I need

Lens Flare V1 Presets work with Lightroom Classic 7.5 or higher, Camera RAW 10.5 or higher. Please verify your version number before you purchase.

How do I install PRESETS?

You can access our installer software if you have an account with Meridian. If you're a guest, you can also access the installation guide included in your download.
