

## Procreate To Affinity Designer Workflow: Pattern Making Made Easy

2025-02-10 16:50:03    [label](#)    [我要反馈](#)    [下载页面](#)

**Procreate To Affinity Designer Workflow: Pattern Making Made Easy:** Welcome to this class, where you'll discover how to seamlessly merge efficiency and affordability by transforming your Procreate drawings into vectors with Adobe Capture and crafting a pattern using Affinity Designer.

Whether you're an experienced artist or just diving into Procreate and Affinity Designer, this class is tailored for you. While a basic understanding of Procreate and Affinity Designer is beneficial, it's not a prerequisite.

### Here's what you'll learn:

- Sketch motifs in Procreate and test patterns using an easy method (pattern-making template) before exporting motifs.
- Vectorize motifs using the free Adobe Capture app.
- Explore basic tools and functions in Affinity Designer essential for pattern creation.
- Construct a diamond template in Affinity Designer for pattern formation.
- Understand various ways to save your pattern.

### Who is this class for?

- Digital artists are familiar with Procreate and Affinity Designer, aiming to broaden their skills.
- Artists are eager to delve into a pattern-making workflow using their iPads.

### What will you achieve?

- Mastery of the Procreate to Affinity Designer workflow.
- Creation of intricate and professional repeating patterns.

### What you'll need:

- An iPad with Procreate installed.
- Adobe Capture app (free download).
- Affinity Designer app (one-time payment).

Throughout the class, I'll share practical tips and shortcuts to streamline the entire process, making it smooth and efficient. This class is the third installment in a series, so if you're curious about other workflows, explore my profile and check out the other classes.

I aim to save you the hassle of searching through various workflows by presenting tried-and-tested pattern-designing techniques. This way, you can accelerate your creative process and experiment with diverse workflows before finding the one that suits you best. Join me, and let's enhance your pattern-designing skills!
