**Digital Drawing in Procreate: Practice Male Hairstyles:** Are you struggling with drawing male hairstyles and haircuts? Do you find yourself hesitant to sketch characters or portraits due to the complexity of hair?

In this concise class, I'll guide you through drawing male hairstyles using default brushes in Procreate. I'll demonstrate how to simplify hair drawing by focusing on shape language and straightforward shading techniques. Together, we'll explore various hairstyles better to grasp shapes, forms, and hair types.

**Throughout the class, you'll discover:**

- How to draw male hairstyles with the aid of references
- Techniques for simplifying hair shapes and forms
- Step-by-step shading methods for hairstyles
- The significance of hairlines and other essential drawing tips

Whether you're a newcomer to digital art or seeking to expand your knowledge of hairstyles, this class will equip you with the foundational skills necessary to approach hair drawing confidently. Since hairstyles often serve as focal points for characters or portraits, mastering these simple techniques will enable you to tackle more intricate styles in the future.

By the class's conclusion, you can create basic hairstyles for male characters. Using references, you'll learn to deconstruct hair into manageable shapes and apply straightforward light and shadow techniques to shade everyday guy hairstyles. This class caters to beginners and intermediate artists seeking to enhance their skills.
