### Smudged Duotone Photo Effect - 283112504:

The Smudged Duotone Photo Effect is a Photoshop template designed to create striking, high-quality images with ease.

Utilizing Smart Object layers, it allows for full customization: simply replace the placeholder image with your own, save, and watch the effect apply automatically.

The package includes two PSD files in high resolutions (4500x3000 px and 3000x4500 px, both at 300 dpi), enabling you to achieve professional results quickly.

Adjustments can be made to fine-tune the final composition.
