

## Artstation – Metapipe v 1.3

2025-02-10 16:44:17 label 我要反馈 下载页面

**Artstation – Metapipe v 1.3:** Effortlessly transition from Metahumans to your character with complete control over the outcome, achieved in less than 5-15 minutes. Gain unparalleled control with Metapipe, a powerful workflow that rivals the studios' capabilities, charging substantial fees for character creation.

Revolutionize your character creation process, save time, and enhance your business with Metapipe, a tool trusted by numerous studios and artists for its complete automation rigging system.

- **Seamless Transfer:** Achieve a seamless transfer from Metahumans to your character with complete control over the final result.
- **Quick Workflow:** Metapipe offers a swift workflow, ensuring efficiency and eliminating the need for excuses to recreate characters.
- **Epic Games Official DNA Calibration Codes:** Utilize Epic Games' official DNA calibration codes for a real Metahuman experience.
- **Metahuman Animator Compatibility:** Work seamlessly with Metahuman Animator for enhanced animation capabilities.
- **Automatic Data Transfer:** Transfer all data automatically, including hundreds of joint data and 700+ blend shapes, with just a few clicks.
- **Different Height Options:** Choose from different height options and edit expression blend shapes of Metahumans.
- **Compatibility with Proportions:** Metapipe works with every proportion of the body and head in the Metahuman pose and topology.
- **Uncharted Challenges:** Solve challenges associated with Metahumans, including the complexity of modifying their detailed rigs.
- **Metapipe Workflow:** Experience the Metapipe workflow explicitly designed for Metahumans, reducing customization time to a click of a button.
- **DNA Calibrations:** Metapipe calculations with DNA calibrations ensure 100% accurate shapes, original blend shapes of expressions, and original joints for both body and head.
- **Click-Based Expression Blendshape System:** Create exaggerated meshes with a click-based expression blend shape system, ideal for characters like orcs, goblins, and cartoon characters.
- **Business Growth:** Metapipe has garnered a significant user base, including significant game and animation companies, streamlining workflow times. Many studios and artists have successfully utilized Metapipe for game cinematics, VFX shots, short movies, portfolio works, and more.
