Sketching from the Imagination: Tap Into Your Creative Mind: Welcome to the exciting world of Sketching from the Imagination! In this class, we'll embark on a journey to explore the art of drawing from memory, observation, and pure Imagination.

To start, we'll lay a solid foundation by focusing on expanding your visual library. Through the initial lessons, we'll gather reference images from diverse sources and delve into understanding the two levels of artistic Imagination.

Once we've sparked your Imagination to new heights and strengthened your visual repertoire, we'll progress to drawing without external references. You'll learn to tap into your creative mind, bending it to new places and mastering the art of thinking in three dimensions.

In addition to enhancing your creative mindset, we'll engage in enjoyable exercises that infuse the drawing process with fun while incorporating just two simple concepts.

Through hands-on exercises, you'll sketch concepts starting from basic shapes, refine your sketches, and add intricate details to produce captivating artwork—all fueled by the power of your mind and Imagination.

As we wrap up our journey, take a moment to reflect on your progress and continue honing your skills beyond the course. Remember, creativity knows no limits, and with consistent practice and dedication, you can unlock your full artistic potential.
