The product is in the **Tutorial category**, for more information about this post you can click on the home page link in the sidebar.
To search for similar products to Drawing Funny Character In Photoshop Vol. 3,

In this class, you will discover the ability to put shadows, colors, and light, the twin of the character that was created.

I created this course to ensure that you will enjoy drawing characters a lot and improve your drawing skills while making the character you'd like to draw.

This is what you'll learn in this course:

- In the beginning, you'll learn to draw the part of the character's body, as well as be taught how to paint it, using light and shadows on it.
- Then I draw various parts of the face, such as the nose, mouth eyes, ears eyebrows, hair, and mouth.
- In the next step, you'll learn to mix and blend colors Small changes will be applied to various areas to help create harmony between the parts of hair and face.
- Also, you'll learn to alter colors, which can be done as colors on clothing or hair.
- When the character is drawn, the entire process is done in a unique manner by visualizing the surface by changing the elements, including the nose, eyes eyebrows, mouth, as well as clothing the character will transform into a different persona.

I am excited to see you in the various educational collections I'll create. In the collections, I'll show you the most important things that will create a highly competent individual when it comes to creating masterpieces of art.

These are the titles for the topics you will learn during this course.

- Character drawing 01
- Character drawing 02
- Character drawing 03
- Character drawing 04
